Typogremlins Haunt Newsmen

This Member of The Species is The Most Malignant of Them All — What he Does is Simply Atrocious Any Way You Look at it.

NEVER CAPTURED

His Devilishness is What Drives Linotype Operators And Compositors to Inebriation And Proof Readers And Editors to Commit Hari-Kari.

A lot has been written about the Gremlins, but oddly enough nobody has ever said a word about the Typogremlin! We can't understand that. We've known about Typogremlins for years. They're awful!

The Typogremlin, like all Gremlins, is very small. He is about two feet high, and wears a suit of boiler-plate, with a funny asbestos cap and a ruffled newsprint collar. His hands are inkly black.

The Typogremlin subsists entirely on molten typemetal. He can't eat anything else because of the Gremlin rules, but that doesn't mean he has to like typemetal (would you?). Consequently he is very irritable. He takes it out on printers and editors.

The Typogremlin delights in sneaking up on a galley while the editor's back is turned and transposing the lines of type. Then he runs in front of the proofreader while he is reading the proof; this makes the proofreader blink just as he was about to read the transposed lines, and of course the misplaced lines get in the paper.

Sometimes the Typogremlin perches on the linotype machine, grinning wickedly. When the operator comes to a name, the Typogremlin leans forward, snickering, and joggles the operator's elbow. Then it comes out like this: Typogremlin. He never does this for

Many thanks for cigarettes received today. They are certainly a grand help in this cold damp England, and make things a lot brighter.

Pte. B. G. Ballard.

Many thanks for cigarettes just received. I can only say once more that your efforts certainly do show results here that are deeply appreciated by each and every one of us locals.

K. W. Lamb.

Thank you so much for another package of cigarettes just received. They certainly are a very welcome gift. We are pretty busy training just now and a cigarette sure comes in handy on the breaks. Thanking you again. I remain, as ever,

Hon. John Bracken Coming To Lincoln

Will be Present at Luncheon in St. Catharines on April 15—Wishes to Meet Farmers And Fruit Growers.

On Thursday, April 15th, Hon. John Bracken, Leader of the Progressive-Conservative party, will be a visitor to St. Catharines. In the evening he will be the guest of honor at a banquet, tendered by the St. Catharines Chamber of Commerce.

Through the efforts of J. A. M. Lockhart, M.P., he will be pleased to meet and converse with all farmers and fruit growers of the district and listen to their problems.

This meeting will take the form of a luncheon at the Welland House at 12 o'clock, and immediately after luncheon, up until three o'clock, Mr. Bracken will be pleased to meet agriculturists either individually or in groups.

Any person wishing to attend this luncheon should communicate with ex-Reeve John E. Lawson, Phone 370, for ticket arrangements.

You Tell Me

What's a poor feller going to do anyhow?

Here's how the Jersey Bulletin puts the case. "If a man runs after money, he's money-mad; if he keeps it, he's a capitalist; if he doesn't get it, he's a ne'er-do-well; if he doesn't try to get it, he lacks ambition. If he gets it, without asking for it, he's a parasite; and if he accumulates it after a lifetime of hard work, people call him a fool who got nothing out of life."

Officer Promoted

Pilot Officer James L. Harris, R.C.A.F., son of Sgt. and Mrs. R. E. Harris, of Winona, was promoted to that rank this month.

A member of the R.C.A.F. permanent force, he is attached to the photographic section. He enlisted in June, 1938, and went overseas as a L.A.C. in February, 1940. After doing considerable work there as an official photographer on an operational unit, he returned to Canada with the rank of sergeant in July, 1941.

Now stationed in Eastern Canada, he is a photographic instructor. One of his brothers, Pte. Ross Harris, was taken prisoner in the Dieppe raid. His father is the range warden at Winona rifle ranges.

TOWN IS IN A HEALTHY FINANCIAL CONDITION

His Worship, the Mayor and Members of the Council of the Corporation of the Town of Grimsby, Grimsby, Ont.

Gentlemen:

In accordance with the terms of my appointment, I have audited the books and records of the Corporation of the Town of Grimsby and its Boards and Commissions, for the year ended December 31, 1942, with the exception of the books and records of the Grimsby Hydro Electric Commission. I have prepared and submit herewith my report for the year ended December 31, 1942, together with a Capital Fund Balance Sheet as at December 31, 1942, a General Fund Balance Sheet as at December 31, 1942, prepared from the books and records of the Corporation of the Town of Grimsby. These statements are accompanied by Balance Sheets as at December 31, 1942, prepared from the books and records of the Boards and Commissions of the Corporation of the Town of Grimsby, with the exception of the books and records of the Grimsby Hydro Electric Commission, and are supported by supplementary statements as detailed in the Index hereto.

For the information of Council, I have prepared and list below, in comparative form, condensed General Fund Balance Sheets of the Corporation of the Town of Grimsby for the years ended December 31, 1938, December 31, 1941 and December 31, 1942.

	Year ended Dec. 31, 1938	Year ended Dec. 31, 1941	Year ended Dec. 31, 1942
ASSETS			
Cash on Deposit in Bank	\$ 1,268.84	\$ 4,924.86	\$ 7,802.08
Debentures Redeemed in advance			14,002.68
Tax Arrears	43,533.88	26,715.52	19,511.49
Accounts Receivable	5,628.68	5,001.94	4,813.54
Mortgages Receivable	11,300.00	250.00	
Agreements Receivable		3,949.89	3,340.98
Tax Sale Properties—net	33,657.15	12,440.08	11,808.28
Trust Funds	10,148.03	13,247.15	14,554.69
	\$105,536.58	\$ 66,529.44	\$ 75,833.74
LIABILITIES			
Bank Loans	\$ 25,000.00	\$	\$
County Rates	29,598.69		
Prepaid Taxes	979.41	305.00	490.00
Accounts Payable, etc.	664.12	244.86	438.70
Trust Fund Reserves	10,218.80	12,782.05	14,017.29
Surplus	39,075.56	53,197.53	60,887.75
	\$105,536.58	\$ 66,529.44	\$ 75,833.74

This comparative statement shows that the Town's financial condition has improved even more markedly during the year 1942 than during the previous year. The excess of liquid assets over current liabilities now amounts to \$48,420.7 at December 31, 1942 as compared with \$40,292.25 at December 31, 1941 and \$5,489.18 at December 31, 1938, an increase in the liquid position of the finances of the Town at December 31, 1942 of \$8,249.82 over that at December 31, 1941 and an increase of \$43,062.59 over the position at December 31, 1938. As a further indication of the improved financial position of the Town, consider the Town's annual County rates. There was owing to the County of Lincoln at December 31, 1938, \$29,598.69 on account of County rates whilst in 1942 the County rates were prepaid in full and an amount of \$458.89 in interest was earned by this prepayment. This interest earned through the improved financial position of the Town is equivalent to approximately three-tenths of a mill on the total assessment.

GENERAL

The audit of the books and records of the Corporation of the Town of Grimsby and of its Boards and Commissions, with the exception of the Grimsby Hydro Electric Commission, for the year ended December 31, 1942 has been made in accordance with the regulations respecting Municipal Audits of the Department of Municipal Affairs, and the attached Statements have been prepared in agreement with the recommendations contained in those regulations. Verification has been made of all persons shown by the records of the Municipality to be in arrears of taxes. The tax roll has been completely and sufficiently audited. The assessment roll has been checked for mathematical accuracy, but no attempt has been made to ascertain whether all taxable property in the Town has been included in the assessment roll.

I have received all the information and explanations I have required and subject to the exceptions noted in this report, I am of the opinion, that all of the transactions of the Town and its Boards and Commissions, with the exception of the Grimsby Hydro Electric Commission, that have come under my notice, have been within the powers of the Town and its Boards and Commissions.

Subject to the comments in this report, I am of the opinion, that the attached Balance Sheets as at December 31, 1942 are properly drawn up so as to exhibit a true and correct view of the state of the Town's affairs, and the affairs of its Boards and Commissions at that date, with the exception of the Grimsby Hydro Electric Commission, according to the best of my information, the explanations given to me and as shown by the books and records of the Town and its Boards and Commissions.

I wish to acknowledge with thanks the courtesy extended to me by the officials of the Town its Boards and Commissions and also by the members of the Council when I have had occasion to appear before them.

Yours faithfully,

S. S. JOSCELYN,

Chartered Accountant.

Blood Pressure Jumps 10 Points

Secretary of Local Ration Board Strenuously Objects To Receiving Mail Addressed "Mr. Rommel."

Armand A. Hummel, Assistant Town Clerk, Tax Collector, Secretary of the Fire Department, Secretary of the Local Ration Board and sundry other positions, is all riled up.

The usually serene young gentleman really has his dander aroused.

In his capacity as Secretary of the Ration Board he receives a great quantity of mail every day. He is asked questions that would take a Solomon to answer. He receives requests of all sorts and kinds. But it is all in a day's work.

What has stirred his blood pressure to the bursting point was the receipt last week of two letters, each addressed to Mr. ROMMEL. He couldn't go for that one.

House Cleaning Means Salvage

Salvage means cigarettes and parcels for the soldiers. If you have been doing your duty, during the past four months you should have considerable salvage stored up.

Perhaps you are one of the few who bring your rags, paper and metal to the storage barn.

If not we will try and make a collection for you.

We can see your old papers and magazines but please tie them with string cord.

Clear glass, even if broken; all kinds of bottles; no broken colored glass. Rubber of every description.

We will advise you of the next collection. Get it ready now.

Thanks to those mentioned below, another \$20.00 was added to our funds, on Wednesday evening, when Farrell's basket factory provided a truck. Frank Ruas, Mac Allan, Sam Levine, Bobby Farrell, Geo. Dousett and Doug. Hartnett assisted in loading salvage.

Six men and a truck for two hours, about the same rate of pay as our soldier boys get. When will you help? Call the chairman and tell him.

Gordon L. Eaton, Supervisor of Music in Grimsby Schools is One "Prophet That is Honored in Own Country".

LARGE TURNOUT

Choir of Mixed Voices From High School Render Many Fine Numbers—Little Tots From Public School Are Hit of Evening.

Grimsby Lions Club had an especial treat at their dinner meeting on Monday night, when they not only had as their special guest, Gordon L. Eaton, Supervisor of Music in Grimsby and township schools, but also had the pleasure of listening to several beautifully rendered choral numbers by the High School Choir of mixed voices.

But the big hit of the evening was the marimba band, composed of little tots from the public school, whose rendition of several simple, but popular numbers did more than anything else to bring home to the large number of Lions present, just what Mr. Eaton is accomplishing along musical lines with our local children.

Lion P. V. Smith, Principal of Grimsby High School introduced Mr. Eaton and drew attention to the fact that a "Prophet is not Honored in His Own Country", has been an accepted fact, but that he believed in this case the Prophet (Mr. Eaton) was being honored, had been honored and would continue to be honored, because the pupils that he had trained in years past, the pupils he is training today, appreciate the great value of his work. Said Mr. Smith "Grimsby and district schools are very fortunate that they have a man of the type and calibre of Mr. Eaton to conduct their musical curriculum. He has

Discharged Men Contact Legion

Rehabilitation Committee Set up by West Lincoln Branch—Returned Man Can be Assisted Greatly by This Organization.

West Lincoln Branch, Canadian Legion, have recently received full instructions and detailed information regarding the rehabilitation of men being discharged from the armed forces of the present war.

The local branch have set up a special committee, under the chairmanship of Mayor Edric S. Johnson, to handle this work, and this committee will deal with all problems relating to the returned man and expend every effort to get him rehabilitated into civilian life.

Already two or three returned men have been assisted greatly by the committee and all discharged men with problems are asked to communicate with W. Liles, Secretary of the Legion, who will place their case before the committee. This is preferable to taking the matter up specifically with any one committee member as he is not likely to have all data at hand. Also there are constantly new instructions coming through and these come direct to the secretary.

Men being discharged from the armed forces are not always conversant with certain regulations and therefore they should keep in contact with the Legion for their own benefit.

45 Mill Tax Rate In Merritton

The following from the St. Catharines Standard of Tuesday, April 6th, speaks for itself:

Council decided to change their previous set 1943 budget after a lengthy special meeting in the town hall last night. The public school supporters will pay a 45-mill rate, the separate school supporters a 47.5 mill rate.

Grimsby tax rate is still 29 mills.

Facts And Fancies

Frank Fairborn, Jr.

HOARDER AND HITLER ARE SYNONYMOUS

It is going to be interesting for the next month or five weeks, to watch the strenuous efforts put forth by some of our citizenry, in their mad endeavor to help win the war, by buying up all the meat that they can get their hands on, to store away for the days of meat rationing, which we are told will come early in May.

There is not a flicker of a doubt in my mind but that there are plenty of citizens right in our midst that will be doing that very thing. They did it with sugar. They did it with butter and they will do it with meat.

Hoarders are nothing short of saboteurs. And it is surprising the number that we have in the Grimsby district. What is more surprising, is the type of people who have stooped to this low level. During the mad hoarding scramble of sugar and butter it was some of our very best people, in other lines of endeavor, that were doing their utmost to buy up all the sugar and butter in sight.

People went crazy to begin with over the sugar situation long before there was even a thought of rationing that commodity. The people themselves forced the hand of the government in rationing this much needed product.

Tea and coffee rationing came as a natural course. But had the people even an inkling that rationing was going to come, the hoarders would have gone into action.

Butter rationing came into effect in Canada long before it would naturally have come, had the people not conceived the crazy idea of hoarding. They started the ball rolling and there was only one protective measure to take, for the betterment of all, and that was rationing.

Now Mr. Hsley announces that meat—beef, pork, veal, lamb, and mutton—will likely be restricted to two pounds per week, per person, early in May. That means smoked meats as well as fresh. It will be mighty hard for a hoarder to lay up a stock of fresh meat, but just watch their efforts to store away a lot of smoked meats. Poultry and away a lot of "offals" such as liver, tongues, hearts, etc. do not come under the rationing order.

Just why any person with the sense of a goose in the noodle would want to hoard a commodity, let alone meat, is utterly beyond comprehension. Yet they will do it. They did it with sugar and butter and they will do it, or attempt to do it with meat.

In the first place there is no average man in the Grimsby district, or any other district, that will eat two pounds of meat a week along with his ordinary percentage of fish, poultry and "butcher offals". Even Big John Stadelmier, who does two men's work every day, will not eat his ordinary share of fish, poultry, and "offals" and consume two pounds of other meat.

I honestly believe that any medical practitioner will tell you, that any man that did eat his ordinary share of fish and poultry and "offals" and then two pounds of meat every week, would not be long for this world.

A lot of our people are apparently afflicted with the same disease that attacks all little boys, "their eyes are bigger than their stomachs" and as a result they hoard.

A person that hoards foods or any other kind of commodities, in these days of struggle for our very existence, is to me, just as

traitorous to King and Country as the person who betrays official secrets and should be dealt with just as strictly. A hoarder is a saboteur of the worst type.

A lot of the people who hoarded butter, in any great quantity, lost out in the end for the butter became rancid and unfit for use. The same thing is going to happen with smoked meats that are hoarded.

Responsible butchers tell me that the hams, shoulders and bacon sides, under the present day system of curing, will not keep for any great length of time. They will positively not keep many days hanging up in a cellar or other moderate cool place. They will keep for some considerable time in an ice box, but even at that, they will dry out so that when boiled, fried or fricassee, it is just like eating pine chips.

In Grandad's day when hams and bacon were cured in the old smoke house in the back yard, with corn cobs, beech and hickory wood and pine knots as smoke producers, that meat would keep under ordinary conditions, hanging from the rafters in the back kitchen, or buried in the oat bin in the barn, for eight months at least and always be fresh and tasty. Such is not the case with present day cured meat.

People who hoard cured meat will have nothing of value in the end and have taken that amount of poundage off the market and cheated some other person from having their normal supply.

Hoarder and Hitler are Synonymous.

LIFE GOES ON

I write on behalf of all parents of men in the Services who have made the great sacrifice. And I write as a father of a son, aged 19, who was killed while on service as a pilot-officer with the Royal Air Force. Young, keen, vigorous and enterprising—such they were. And before they had done more than taste the first sips of life it was over.

We are puzzled and sore. We explain and repine. It is easy to be bitter and resentful. "What a waste!" we say. "Why does God allow it? How can God bear it?" Or, selfishly, we ask, "Why am I picked out for such a sorrow as this?"

"Why does God allow it?"—a natural question. But why does God allow any evil in peacetime or in wartime, in nations or in individuals, to go on? Only because He cannot stop it without using force, and to use force would be to take away the free will He has given us. All through, God is trying to persuade men to use their own freedom rightly.

We are stricken fathers and mothers, wives and sweethearts and friends, but remember that God is a stricken Father. He can bear our sorrows with us, for He understands it all. He, too, saw a Son die. Afflicted in our afflictions—that is God. As for the boy, realize this. He had tasted the fresh juice of life. He is spared from tasting its stale and bitter dregs. He is snatched away from the evil that might come.

You know your own loss. There is a hole in your home and your heart. God help you. But do not talk of waste. For death is not the end. Life goes on. I have always been certain of that.

The universe does not make sense if the grave is the end of man's life. But I never felt so certain of it as when I stood by my son's grave. My boy—full of zest, rejoicing in life and by this promise unfolding all that growth which I loved to see in him—God had given and fostered for the use He made make of him.

Do not have that God has thrown it all away just when it was coming to fruit. God wastes no spiritual possibilities in any of us. He has a use for him, and He won't let it be unrealized. The boy has higher flights to reach; a fuller life to live. He is more alive now than when he was here. He is seeing more, knowing more, and enjoying more. One can remember him in one's time of prayer, and have no doubt he remembers us. So it is with me. So it may be with you. And, if you show yourself worthy to do so, you will meet him again.

Hold on to a loving God to whom your son is dearer even than he is to you. He lent him to you for a time, and He has taken him now to a more worth-while life. Some day, please God, you and he together shall share in the joy of that life and that joy shall be forever—A. W. F. Blunt, Bishop of Bradford, England.

AN AMAZING CONDITION

The strength or the abuse of unionization was never more impressive than in the case of the railway rules in the United States. The revelation comes from Barron's and is reproduced in The Reader's Digest. The men who move war traffic are prevented from working a full week.

Attention to the case was focused when a hard-boiled draft board refused exemption to seven draftees, rail workers, who were badly needed. "Why don't you ask the unions to relax their rules for war so that men can do a full week's work?" The answer was that the unions refused, and there is a shortage, a artificial one, of 168,000 men for essential railway jobs.

It is a haggover from 40 years ago when the limit of 4,800 miles per month was imposed for engineers and firemen in the passenger service and 3,800 miles a month for freight train workers. Now, with fast locomotives and Diesel engines, 100 miles is 100 minutes of time. On one run an engineer and firemen are limited to nine trips a month of eight hours duration. Here is a case in point:

The crew in the cab of the B. and O's Royal Blue between New York and Washington may work only one day in three. On the Southern Pacific's Los Angeles-San Francisco Daylight, the engine crew is permitted to make only 12 runs a month.

If the unions would let engineers on the Union Pacific's Steamliner work six 8-hour days per week for one month, these men would earn \$2,000 and the rules would require them to lay off four months to catch up with their mileage limitation. This is true also of the Santa Fe's Super-Chief and the Milwaukee's Hiawatha.

The railway management, to get full traffic movement are willing to pay up to the limit, \$1,000 a month, for engineers. But

the Union holds the wage down to \$400 per person.

Another practice is the wasteful one of switch engines being forced to return empty. Freight cars are removed from the Santa Fe to the Southern Pacific. The engine returns empty, followed by a Southern Pacific engine pulling Santa Fe cars. The railroad yards are jammed with cars and the practice of returning light means twice the number of crews, engines and equipment. There is a small switch engine working in Texas yards which takes six men, under a rule which says it takes a foreman and three men as well as engineer and fireman to handle a switch engine.

With all the exposure, there will apparently be nothing done about it. What would Hitler or Tojo do to those archaic union shackles on national effort?

The same condition of affairs also exists, to a slightly lesser extent, on Canadian railroads. Why should it be?

Penned and Pilfered

Women may be smarter than men, but you never see a man buttoning his shirt up the back.

The sexes will not be equal until working women bring their cheques home to turn them over to the husbands.

The next trend would seem to be back to the dining room. The breakfast nook is entirely too small in which to carve a horse.

IN WHICH THE WOMAN-NEXT-DOOR LOOKS AT US, AT OUR TOWN, AND OCCASIONALLY AT THE WORLD

"Look Around You"

"Always know that there is no job so buried, no outlook so bleak that it cannot furnish an inquiring, curious, vital mind with the material for a full life.

"The hardest truth to realize is that we do not have to move in order to have more life. Life is Everywhere. Instead of moving our bodies we should move our minds to see the possibilities under our noses."

Down Devon Way

The recent temporary shortage of potatoes brought visions of the time we were lost one fine, keen spring day down in leafy Devonshire. We were in search of a certain farmhouse inhabited by a family of cousins whom we had never seen. Explicit directions had been given for reaching the house, known as Upalong (As far as we were concerned its name might have been Downalong and Allalong as well, for that is where we wandered).

We were told to drop off the train at a certain halt—"drop" was right, for the train only slowed down and we dropped on the right of way with nothing in sight but empty fields, railway and sky. "It's only two miles straight away across the fields. You can't miss it; everybody knows where it is." Our companion, another cousin, had been there before, only not from that angle, and said she knew the way.

Finally, towards teatime, after crossing fields, climbing in and out of combs, getting an unexpected glimpse of the sea from a tor, crossing the corner of a moor and being lost in the woods, we fetched up at a farmhouse,—not the one we were looking for. On explaining ourselves we were welcomed hospitably. All that had happened was that we had been dropped out on the wrong side of the train, and kept on going. We were only seven miles away across country from our destination. Our new friends (who were also friends of the lost cousins) telephoned the news of our arrival to Upalong and then proceeded to refresh us in true Devonshire fashion.

There was tea in big cups of fine china, thick cream, slabs of delicious crusty home-made bread spread with golden butter, bramble and whortleberry jam. But the principal dish was Devonshire Fried Potatoes. Never had we tasted anything like it. Cold boiled potatoes chopped fine, were put in a frying pan with a little melted bacon fat. Salt and pepper was added and the potatoes pressed into cake form with a plate. We took turns shaking the pan over the fire until a thin blue smoke appeared. Then the potatoes, nicely browned, were turned into a platter, from which generous helpings were served. By the time the potatoes had disappeared, two big boiled eggs apiece were put before us, brought in from the poultry yard just five minutes before by the littlest girl of the family, blue-eyed Alice, seven years old.

We never reached Upalong that day for there was just time left to be driven to the station on our way back to Exeter.

Mark 9: 2-8; 2nd Peter 1:16-18

GOLDEN TEXT

A voice came out of the cloud, saying, This is my beloved Son; hear him.—Mark 9:7.

The Historical Setting

A week before the transfiguration took place, Jesus had told His disciples that some of them would not die until they had seen the Kingdom of God coming in power. This promise was fulfilled to Peter, James and John on the Mount.

An Introduction to The Lesson

The transfiguration scene was a picture in miniature of that Kingdom, which is to be brought in, in power, when our Saviour comes again. The three disciples were chosen of God, to be "eyewitnesses of His Majesty," that is, to behold before and a vision of the glory yet to be revealed in that coming day.

The Heart of The Lesson

The disciples saw Him then as all shall see Him when He comes again to bring in the Kingdom promised by the prophets the Kingdom that is in abeyance now because of the rejection by Israel when He came in lowly grace. The Father's voice made assurance doubly sure as He proclaimed His delight in the Son of His love.

Application

The three disciples had never seen Moses or Elijah, but they knew them in the transfiguration scene when they appeared with Jesus upon the Mount. Even so shall we recognize all the redeemed when we shall know as we are known (1st Cor. 13:12). The Father's will is that all men should honour the Son, and yield obedience to His Word. Are we seeking thus to own His authority?

Down To The Lake And Up To The Point

The effectiveness of gasoline rationing is seen in the number of young people out walking on these fine spring Sundays. Many of them turn lakeward; later on, as the path to the Point dries, the pedestrian tide will turn in the opposite direction.

If there had been a visitors' book all these years since the first settlement of The Forty, signed by the notable personages and important people (that last means us; all people are important) who climbed that mountain path and gazed delighted, and no doubt awed, at the length and breadth of the scene that opened out before them as they emerged from the trees and came out on "The Point", what a book it would be! On the first page we would surely find the

names of G. Robert Nelles and his lady, of Mrs. John Graves Simcoe, wife of the Governor of Upper Canada, and perhaps even that of the Governor himself. Would you be surprised to see the name of Rev. T. DeWitt Talmage, that great preacher of the nineties?

As Lake Ontario and The Point will probably dominate the local scene for quite a number of years to come, it isn't too late yet to begin such a registry.

THE HAMMER

It keeps its head.
It doesn't fly off the handle.
It keeps pounding away.
It finds the point, then drives it home.
It looks on the other side, too and thus often clinches the matter.
It makes mistakes, but when it does, it starts all over.
It is the only kind of knocker in the world that does any good.
—The Lookout.

"It's for Bill"

... and when you buy a Victory Bond, to help Bill, and other boys on active service, you do something that will benefit you too. You save money. It's really a mistake to say that you "buy" a Victory Bond. You are not buying anything. You are saving money, and putting your savings where they will be absolutely safe, and where they earn money for you. (Each \$100.00 Victory Bond earns \$3.00 a year—3% interest.) You are likely producing more, and earning more. You can save more. You are not buying some things; you can't get them. You are buying less of many things—they're rationed. You can't help saving more. See to it that your savings are kept intact— earmarked for things you will need when the war ends. You will have to replace things that are worn out. You will want a lot of things. Money saved and invested in Victory Bonds will provide cash to pay for them.

WHAT IS A VICTORY BOND?

A VICTORY BOND is the promise of the Dominion of Canada to repay in cash the full face value of the Bond at the time stipulated, with half-yearly interest at the rate of 3% per annum until maturity.

A Victory Bond is the safest investment in Canada. The entire resources of the Dominion stand behind it. Canada has been issuing bonds for 75 years, and has never failed to pay every dollar of principal and interest.

A Victory Bond is an asset more readily converted into cash than any other security.

You can buy Victory Bonds for cash in a lump sum, or you can arrange to pay for them in convenient instalments over a period of six months.

Your Victory Bond salesman will be glad to tell you full particulars.

Was Well Filled At Christmas

The following letter has been received by Mrs. Morley Robinson from Morley, dated Jan. 23, 1943: "Received your second letter telling of the parcel and got the parcel on the 19th of January, just five months to the day of coming over here. Thanks a lot, all was O.K. except the pipe which was broken, but I fixed that. Hope next parcel has more chocolate as it is essential for our health. Always include several pounds, please, it sure was lovely."

"Have plenty of clothes now, socks or a towel is all that could be needed again. We are getting a parcel from the people of Canada, a Christmas one. I believe they are here now, but it takes so long to give out our mail. "I am well as usual, and still with the boys here, and getting along just fine. Must say our stomachs have shrunk considerably. Good job, I guess. Keep writing, and don't worry."

Postcard from Morley Robinson, dated, December 27th, received by Eric Mannell, stated he was well and said he was well filled at Christmas but not with turkey; there was lots of musical entertainment and sports. (Good Luck, Morley.—Ed.)

Trinity W.A.

The regular meeting of the Women's Association of Trinity United Church was held at the home of Mrs. David Cloughley on Thursday last. The President, Mrs. J. O. Moore, presided, Mrs. W. R. Greig taking the Scripture reading. After the business meeting, refreshments were served by the hostesses, Mrs. Greig and Mrs. Boyd, following which, the ladies made artificial flowers out of pieces of print, under the supervision of Mrs. Dymond.

The May meeting is to be held at the home of Mrs. N. A. Penfold, at 242 Main St. W. (at Kerman Ave.)

I.O.D.E.

At the request of the Department of National Defence, Naval Service, Ottawa, the Lincoln Loyalist Chapter, I.O.D.E. have decided to adopt a small ship of the Canadian Navy—and interest and support of the pub. are being solicited on behalf of this most worthy project.

In the past, the Naval Service, both in Canada and Great Britain were opposed to the adoption policy, as they felt it led to unequal distribution of comforts and a loss of perishable goods. Now, however, in the light of experience, the Director of Special Services at the Canadian Navy is convinced that it is of great value to the morale of the men on a ship, to have a civilian group take a special interest in them. The exchange of letters and the friendships formed as a result of such adoption, is very cheering to the men who are daily facing unworldly hardships and dangers.

The "Interceptor" is the name of the ship assigned to Lincoln Loyalist Chapter and the Commander and ratings of this ship will be the special charge of the Committee and their friends who may be interested.

Besides a radio, electric iron, electric toaster for the use of the crew, many articles such as shaving equipment, playing cards, games, puzzles soap, cigarettes, chewing gum, and other small comforts—other than clothing—are being asked for, as well as contributions of money.

These contributions may be handed to Mr. L. A. Bromley at the postoffice, or to Mrs. Nell M. Leckie who is convener of the committee. A parcel is at present being made up for shipment in the near future, and a telephone call to 182 will bring a motor car to the door of any donor who is unable to deliver a gift in person. The I.O.D.E. feel that in taking on this responsibility, they will have the generous support of many friends, coffee and her sugar coupon. So,

Around The GRIMSBY High School

Last Friday afternoon, two students were chosen for an annual medals presented by the I.O.D.E. and the Grimsby Lions' Club. Miss Betty Shivas was the recipient of the former, and Donald Watt of the latter. The medals will be presented at the annual Commencement in the fall.

On April 5th, members of the G.H.S. Glee Club sang at the Grimsby Lions' Club dinner. The evening was in honour of Mr. Gordon L. Eaton, supervisor of music in the Grimsby schools. Later the students were treated to the show by the Club.

Miss E. Glave, who has been confined to her home on Main St. E. for the past week, returned to school Monday.

War Savings Stamps on sale in the library Friday afternoon.

Tuesday evening, a capacity audience witnessed the Oratory and Verse Speaking Contests held in the G.H.S. Auditorium. This year, in addition to the annual award for Oratory, the Educational Committee of the I.O.D.E. are also presenting a Verse Speaking award.

Verse Speaking
Mrs. Gordon Cole, a teacher from the Grimsby Beach Public School, introduced the two Public School representatives—Joan Shannon, Grade VIII; Jean Swanson, Grade VII. Joan Shannon was the winner in this group.

Jr. Verse Speaking—Introduced by Connie DeLaplante, the following students recited suitable poems and verses from the Bible: John Dunne, Grade IX; Margaret Hadju, Grade IX; John Schott, Grade X; Richard Crumb, Grade X.

Winners—John Dunne, Richard Crumb.
Sr. Verse Speaking—Introduced by Edward McNinch, the following students took part: Joan Eaton, Grade XI; Jim Bant, Grade XI; Leslie Pope, Grade XII; Suzanne Pasche, Grade XII; Charles Johnson, Grade XII; Elizabeth Shivas, Grade XIII; Edward Konkle, Grade XIII.

Winners—Elizabeth Shivas; Leslie Pope.
Judges for the above contests were: Miss Walsh and Rev. Dr. Neil Leckie.

Jr. Oratory Contest—Announcer: Connie DeLaplante. Contestants: Louise Knight, "Rationing"; Havelock Jewson, "General Douglas MacArthur"; Ross Brubaker, "The Japanese Soldier"; Arthur Brydon, "The Ultimatum"; all of these students were from Grade X.

Winners—1st, Havelock Jewson; 2nd, Louise Knight.

Sr. Oratory Contest—Announcer, Edward McNinch. Contestants: Dorothy Metcalfe, Grade XI, "The Alcan Highway" or "Shortcut to Tokyo"; Allison Jeffries, Grade XI, "Our Mystery Ally—Russia"; Ian Marr, Grade XI, "The Hero of N. Africa, General Montgomery"; Jim Bant, Grade XI, "Winston Churchill"; Suzanne Pasche, Grade XII, "Them Gremlins"; Kathleen Yeager, Grade XII, "The Coolie, Hero of China"; Leslie Pope, Grade XII, "The Atlantic Charter"; Virginia Hewson, Grade XIII, "The Earl of Suffolk and his Demolition Squad".

Winners—1st, Allison Jeffries; 2nd, Virginia Hewson.

Mr. Matchett and Mr. Colpitts acted as judges for this group. During the intermission, Grade IX girls, under the direction of Miss G. Calder, gave a novelty skipping demonstration. The girls included: Shirley Cornwall, Jean Larsen, Muriel Gracie, Nancy Gordon, Francis Dufos, Bessie Brall, Madeline Farrell, Madeleine Ferguson accompanied them at the piano.

Forgetful Stork Causes Trouble

Ration Books Must be Taken by Person Entering Hospital—Baby Ration Book Should Accompany First Diapers.

The troubles of ration boards are never ceasing.

Take the case of the forgetful stork, for instance. He's rapidly becoming a distribution bottleneck.

It's like this. Nobody expects little Jim or Janie to arrive from out of the everywhere into these rationed regions clutching their coupons in their tiny dimpled fingers. But in all the excitement of getting to the hospital on time, mother-to-be is apt to forget her ration book. And at the end of one week's stay, the hospital need a coupon for her butter; for two D.E. feel that in taking on this responsibility, they will have the generous support of many friends, coffee and her sugar coupon. So,

WHITE ELEPHANT SHOP

The second annual "White Elephant" Bridge Tournament was brought to a successful conclusion on Wednesday, March 31st, by means of a bridge party held at the Village Inn on that evening. Most of those taking part in the tournament attended the party.

The champions of this year's tournament were Mr. and Mrs. K. G. Passer; they were presented with a leather travelling case for bridge, and the winners of the consolation round, Mrs. Kelterborn and Mrs. Catton, each received a framed picture. The prize for the evening was won by Mr. and Mrs. Robt. Glaessner.

Mrs. P. Tregunno was the lucky winner of the quilt, contributed by the Grimsby Beach Red Cross Group, and given to the White Elephant Shop by them to raffle. The Shop realized nearly \$25.00 on this beautiful quilt, and is very grateful to these ladies for their generous gift.

We would like to thank all those citizens of Grimsby who so loyally helped us once again to make our tournament a success, and also to thank the Village Inn for their kind co-operation.

Coming Events

Trinity Service Club will hold its regular meeting in Trinity Hall on Tuesday, April 13th, at 2.45 p.m. A movie, with sound effects, depicting the life of an airwoman, from the time of enlistment to graduation, will be shown. It is hoped that all members will attend.

The regular meeting of the Mothers' Club will be held at the home of Mrs. Geo. DeQuetteville, Main St. West, on Thursday, April 15th, at 3 p.m. Mrs. L. A. Bromley will be the guest speaker.

Beaver Club

The regular business meeting of the Beaver Club of St. John's Presbyterian Church was held in the Church Rooms Monday afternoon.

Several items of business were dealt with and two baby quilts for the Red Cross were completed. Hostesses for the afternoon were Mrs. Clarence McNinch and Miss Marion Gibson.

Township council meets Saturday afternoon.

Friday morning's blanket of snow was a day late for an April fool joke.

Members of St. Catharines Fire Department are asking city council for a raise in pay of \$200 annually.

St. Catharines Red Cross Society is taking a leaf out of Grimsby's book. They are asking for lady Blood Donors.

Out of a total enrollment of 135 pupils attending Grimsby High School, 45 boys and 52 girls have volunteered for farm service work, during the summer. Some have already started work.

The annual meeting of the Lincoln Liberal Association will be held in the Community Hall, Beamsville, on Wednesday evening, April 14th, at 8:30 p.m. Hughes Cleaver, M.P. for Halton, will be the speaker of the evening.

District convention of the Canadian Legion, was held in Brantford, on Sunday last. Members from West Lincoln Branch attending were Vice-president, L. A. Bromley; Secretary W. Liles, Fred Jewson and Ted. Rooker.

Now that Supt. of Works Lawrie and his men have cleaned the dirt and grime off Main street, the old thoroughfare begins to look natural, with the exception of the holes along the old H. G. & B. tracks. Those holes do not belong to the Town. They are the property of the Department of Highways.

A trip over the Queen Elizabeth Way Thursday afternoon gave evidence of the extent to which highway travel has been reduced by gasoline and tire restrictions. Between Jordan and Grimsby there was not one auto in sight, and from Grimsby to Hamilton, the number of other vehicles on the road numbered three. Autos and trucks were more plentiful on the Queen Elizabeth Way from Hamilton to Toronto, but at no time could traffic be described as heavy.

Clarence Hugenauht Rushton, manager of Grimsby Peach Buds, has on display in his window, the Henry Birks and Son Trophy, which is the cup presented to the team that is runner-up in the Ontario Juvenile Hockey Association series. Peach Buds did not win a championship, but they have a trophy just the same.

Local Hydro Commission met last week, but insofar as a news hound is concerned, they might just as well not have met. Everything is running so smooth with the "Two Jims" organization that it was more of a mutual admiration society meeting than that of a Town body. This poor scribe couldn't get a line of news, other than this out of the meeting.

Mr. W. L. Higgins, with many years of experience in plumbing, heating, air-conditioning and sewerage system installation, is opening up business in Grimsby on Monday, April 12th. Mr. Higgins has been a resident of Toronto for many years, but lately has been making his home at Erin. For the present, any one wishing his services can telephone or call Current and Betzner.

Women Red Cross workers in the province of Ontario made over 3,200,000 articles during 1942. Included in this total was 1,121,562 hospital supplies and 896,265 finished pieces of civilian clothing. Knitted comforts for seamen, soldiers and airmen amounted to nearly half a million articles. Shipments to the Far East from Ontario totalled 62,043 articles. Russia was sent 46,000 pieces of civilian clothing, and 15,000 sheets, pillow-cases and quilts.

The Saltfleet Farm Service camp, located on the E. D. Smith property, Glover's alderoad, was opened last Thursday with the arrival of girls from Cobourg, Beamsville, Kitchener and Toronto, who will be employed in greenhouse work immediately. Several of these girls were at the camp last season and were pleased to return again, looking forward to another season of work with pleasure. This camp is under the supervision of Miss Olive Hughes, director, who was in charge last year, and Miss Maria Gibson, of Paris, labour secretary.

Town council meets next Wednesday night.

Good Friday, two weeks from tomorrow.

Supply of Hot Cross Buns for Good Friday will be reduced this year by 30 per cent.

Provincial Constable Ernest Hart, Grimsby, is on his annual two weeks' leave. During his absence his work is being handled by St. Catharines detachment.

Mr. L. T. Spalding of Hamilton, will be the guest speaker at the Lions Club, on Tuesday evening, April 20th, speaking on his recent trip to England.

"Reports of inspections of Thorold public schools show that Thorold students as a whole are below the half-way mark in spelling and general English." That is the report that W. W. MacDonald, Principal of Thorold public schools made to the Board of Education.

Thomas Mackie, North Grimsby township road superintendent, reports that Lake road and Nelles road have both been extensively damaged owing to the bottom going out in some places. Temporary repairs are being made with crushed stone and cinders. Above the escarpment all township roads have wintered with little or no damage, he said, but below the hill is a different story.

Commenting on a charge of non-support preferred by a wife against her husband, Magistrate J. H. Campbell, St. Catharines, said marriage vows were taken for better or for worse. "If you get the better you are lucky, but if you get the 'worse' it is unfortunate and you'll have to make the best of it." He said parents should try and live together, particularly where there are children.

In spite of gasoline rationing, more Ontario cars will be operating this year than the Government anticipated. As a result, the Department of Highways Tuesday faced a temporary shortage of license plates and is rushing the manufacture of a further supply to be ready in a few days. Meanwhile, it has been found necessary to issue 1943 licenses authorizing operation of motor vehicles with 1942 plates, which will be mailed to those receiving these permits. By arrangement with the oil controller, gasoline may be purchased on the 1943 license alone until plates, order for which was reduced this year, are available.

FUNERAL OF EARL BOND

A detachment of the R. C. M. P. joined with a large assembly of police officers from many points, including Toronto, London, Hamilton, Sarnia, Petrolia, St. Thomas and Tillsonburg, and a host of other friends of the late Provincial Traffic Officer A. Earl Bond in paying tribute to his memory at Sheffield Thursday afternoon.

It was one of the largest funerals held in the district and Sheffield United Church was filled to capacity for the impressive service conducted by the minister, Rev. R. H. Smith.

Also among those attending from outside points was Staff Inspector W. C. Killing, who represented William Stringer, commiss-

ioner of the provincial police.

During the service the hymn, Wonderful Peace, was sung by Mrs. Elmer Miller, with Mrs. William Pullin at the organ. Also testifying to the esteem in which Mr. Bond was held was the handsome display of floral pieces that banked the casket.

The pallbearers were the following provincial constables: D. H. Rogers, Stoney Creek; N. F. Morris and Murray Bruce, of Hamilton; James Culp, Goderich; Edward Jess, of Paris, and John Reavley, of Milton. Police officers also formed a guard of honour at the church and at Sheffield Cemetery, where interment took place. John Derby, Jun., and William Pullin acted as ushers at the church.

Obituary

GEORGE CORTEZ UDELL

A well-known and highly esteemed North Grimsby farmer, George Cortez Udell died Thursday at his home in his 40th year. He was born in Grimsby, the youngest son of the late Mr. and Mrs. George Udell, and belonged to St. Andrew's Anglican Church. Surviving him are a brother, Morris E. Udell, of Grimsby, and two sisters, Mrs. Chester F. Gibson, of Hamilton, and Mrs. H. K. Griffith, of Grimsby. The funeral was held privately at his home on Saturday afternoon with interment in Queens Lawn Cemetery. Rev. J. Allan Ballard officiated.

MRS. IRVIN BOWMAN

Following a lingering illness, Mrs. Irvin Bowman passed away Monday morning at her home in North Grimsby township. She was born in Barton township and was in her 47th year. Surviving, besides her husband, are her father, Howard Sansbury, of Dunnville; two brothers, Fred, of Grimsby, and Charles, of Dunnville, and three sisters, Mrs. Norman Wilcox, Grimsby; Mrs. Elvia Nelson, Dunnville, and Mrs. Russell Bates, St. Catharines. Funeral service was held at Fulton Stone Church on Wednesday afternoon, with interment in Fulton Cemetery.

Casket bearers were, Norman Atkinson, Clarence Bentley, Bernard Emsley, Howard Allen, Stanley Gunning, Carl Waite.

MRS. E. E. BOWSLAUGH

The death occurred in Guelph General Hospital on Monday of Tena Lazella, wife of the late Ernest E. Bowslaugh, a resident of Grimsby for nearly 50 years. Deceased lady had been resident of Guelph, with her daughters for the past nine months. She was born in the township of Clinton, August 1st, 1870. She was an adherent of Trinity United church.

Surviving are three sons, Cecil of Grimsby, Harold of Hamilton and Lloyd of Brandon, Man.; three daughters, Mrs. John Fardoe, Brandon, Man., Misses Irene and Queenie of Guelph. The remains were brought from Guelph on Tuesday and rested at the Stonehouse Funeral Home, until Wednesday afternoon, when services were conducted by Rev. W. J. Watt. Interment taking place in Queen's Lawn cemetery.

Casket bearers were, John and Freeman Bowslaugh, M. Found, Wm. Coon, Charles Southward, Edw. Lander.

MRS. L. D. BARCHFELD

SUMMIT, N.J., April 2—Funeral services were held today for Mrs. Henrietta May Walker Barchfeld, who died March 31, at her home here after a lingering illness. Burial was in Rosedale Cemetery, West Orange, N.J. Mrs. Barchfeld, 81, was a resident of St. Petersburg, Fla., for many years. Born in Grimsby, Ontario, Canada, Mrs. Barchfeld was a member of two of the oldest families in the U.S. and Canada. Her grandfather, Ralph Walker, left his pre-revolutionary home at Hillsboro, N.C., and drove a team of oxen to Canada in the Tory exodus, settling at Grimsby on the famed Niagara Fruit Peninsula. On her mother's side, Mrs. Barchfeld was a descendant of the original settlers of Randall's Island in New York City.

Mrs. Barchfeld is survived by her husband, Louis D. Barchfeld, a retired jewel merchant, and two nieces and a nephew in Canada. Mrs. Barchfeld will be well remembered by the older generation in Grimsby, having resided here for many years, in the home now owned by Charles Laing, Elm St. Mr. Barchfeld was for some years Town Assessor.

Mrs. Donald Clark, 5 Paton St. and Arthur Walker, North Grimsby are a niece and nephew.

BATON PRESENTED

been a valued asset to this community for years. His music festival at Blossom Time gained national prominence. He has a humor, an individualism all his own and he is very human."

Kenneth Griffith, Principal of Grimsby Public Schools, spoke along similar lines and drew attention to the fact that many of the little tots had been advanced a grade in their scholastic studies, being due for advancement, without fear because of the fact that in their advanced classes they would then come under the control of Mr. Eaton for certain periods each week, which would be very beneficial to them. Mr. Griffith also stated that Mr. Eaton was one of three Music Supervisors, in Ontario schools, that is being asked by the Ontario Department of Education to criticize on the type of music to be used in Ontario schools.

Lion Earl J. Marsh, Chairman of Grimsby Board of Education, in a few well chosen remarks expressed the feelings and regards that the Board held for Mr. Eaton and his work, and on behalf of the Lions Club presented him with a Baton.

Lion Rev. G. Taylor-Munro, on behalf of the Club presented to Miss Joan Eaton, a beautiful bouquet of flowers for Mrs. Eaton, who through illness was unable to be present.

Miss Joan Eaton very acceptably rendered a piano solo, and Miss Betty Shivas was accompanist for the numbers rendered by the choir. The Choir after the rendition of their numbers were entertained by the Lions to a theatre party at Moore's Theatre.

At the request of the Independent, Mr. Eaton, here gives a short synopsis account of the work that is being carried on in the schools.

"In Public Schools I supervise the teaching of Music. That is I teach a lesson in each class once a week and between visits the work is carried on by regular staff teachers."

"A repertoire of suitable songs is built up in all grades averaging about one a week. These are in most cases begun by Supervisor."

"Actual study of music consists of study of the scale first in lower grades preparatory to introduction of reading by note. Beginning with Grade II, pupils have use of Music Readers from which simple songs are learned by note. More difficult songs are taught by note in all grades—part singing from Grade IV up."

"Kindergarten music consists of note songs, rhythm exercises, singing games and Rhythm Band."

"Appreciation of music is carried on to some extent in all grades by use of phonograph."

"In the High School the teaching of music is entirely in my hands—no supervision."

"Grades IX and X (Lower School) receive two periods each week. Part singing, some music theory, and appreciation of music with phonograph (an electric machine of particularly good tone)."

"One Choral Class each week including the best musical talent of the school, from which the school choir is selected (at present about 60 members). When preparing for any special programme extra time is allowed for rehearsals."

"Public performances are considered necessary for the healthy condition of musical endeavor in school. It serves as an incentive for study, and gives the community an opportunity to judge the benefits. With this idea in view the Blossom Time Music Festival was begun in 1929 and possibly accounts for the steady interest in the subject, while many schools thought it necessary to dispense with it during depression years."

"This festival is a school programme given early in May and presented by talent from all the schools of the district."

"It is built around a Festival Chorus of about 150 senior Public School pupils which in some numbers is assisted by the High School Choir, and other young people when available. (Young Men's Chorus before the war). This is the group that broadcasted trans-Canada for three years prior to war."

Festival programme also includes class choruses, dances, solos, rhythm band, etc. The date this year is May 13 and 14. Weekly rehearsals have been in progress since March 1st.

Odd Facts About Food

It has been discovered that meat is the most satisfying food in that it calls forth the greatest activity on the part of the stomach.

Milk ranks next to meat. Cooked eggs are more satisfying than raw eggs; the latter leave the stomach rapidly and are not easily digested.

Bread, especially if toasted, has poor appetite-satisfying qualities. Potatoes are only a little higher. Both become more satisfying if a little butter is used with them, which is poor consolation in these days of rationing. Green vegetables are low in satisfying qualities, though high in vitamin content.

If eggs are eaten raw, beat them in order to get full value. Plain raw egg white apparently runs through the system so rapidly that it is hardly digested at all.

Cooking loosens the connective

tissue of meat so that the digestive juices reach it more readily. Cooking causes the starch cells of vegetables to burst and become accessible to digestive fluids.

Foods that are most likely to cause distress because of individual sensitivities are, in relative order according to one test involving 500 people: onions, milk, apples, cabbage chocolate, radishes, tomatoes, cucumbers, eggs, and fats. Milk is more easily digested when mixed with other foods; take a cracker with your milk.

Threatened with the daily possibility of Japanese air raids, women on the Pacific Coast are taking an active part in preparing for all eventualities. On the left a young housewife practices disconnecting the gas supply at the outlet, one of the first things that should be done when air raid sirens sound. On the right a trained ARP worker demonstrates the method for taping windows to prevent the glass from splintering.

WHO PAYS

?

Messrs. Jones and Messrs. Brown both make shoes — shoes exactly similar in quality and style. Messrs. Jones do not advertise. Messrs. Brown do, and sell a very much greater quantity than Messrs. Jones in consequence. WHO PAYS FOR MESSRS. BROWN'S ADVERTISING?

Not Messrs. Brown — because their profit — on the quantity sold—is Messrs. Jones' profit multiplied many times. Not the public — because they get, for \$4.00, shoes of a quality for which Messrs. Jones charge \$4.50. Not the retailer — because the profit is the same in both cases.

No one pays for advertising. It is an economy — not a charge. It does for the operation of selling what Messrs. Brown's machinery does for the operation of making shoes—speeds it up, and multiplies its efficiency. It makes possible big-scale production and so reduces costs.

TYPOGREMLINS

names like Dnepropetrovsk or Ayudhya, only for Smith, Jensen and Brown.

But that's nothing. You know what the Typogremlin does sometimes? He makes another error in a line which has been corrected. So, if the first story says that Mr. Smith is a detective on the police force, and the editor horrifiedly corrects it the Typogremlin makes it read: "Mr. Smith is a detective on the police force."

Then the Typogremlin doubles up with laughter.

The Typogremlin thinks the best fun, however, is changing the economic system of the district. He likes to sell a 24-pound bag of flour for either 11 cents or for 11 dollars and 90 cents. He'd rather not sell it for \$1.19 if he can avoid it. He sells Johnnie Walker scotch for \$29.80 a bottle. This makes ever so many people mad, and the Typogremlin is tickled pink.

The Typogremlin often changes the pages around, too. When a story says, "Continued on Page 3," he moves the rest to page 11 to make the readers hunt for it. Sometimes he takes it and throws it away. This makes people simply furious. But it makes the Typogremlin awfully happy.

There is a minor species of Typogremlin called the Slugremlin. He is only about a foot tall, and has four hands. He needs them, because he specializes in putting things in instead of taking them out. He likes to put "ADD BIRTHS" on top of a story about Mrs. Smith becoming a mother for the seventh time. At the bottom he will put "MORE TO COME." You can imagine how delighted he is when he succeeds.

But the Slugremlin, as we have said, is only a subspecies. The Typogremlin will do almost anything, and usually does.

Oh, we know all about the Typogremlin. We're kind of resigned to it by now.

The war has caused many changes as you know, but a very important one to the newspaper craft and one that has virtually gone unmentioned so far, according to the Chicago Sun, is the transference of the Gremlin from composing rooms to the aircraft of the R.A.F.

For years the Gremlin pranced along typesetters' keys, in fact the very spelling of the name indicates it was devilishly done by the hand of these interfering little men.

A newspaper compositor's error?
Of course not. Just one of those fantastic half-world creatures—a Gremlin—at work.

Their diabolical handiwork appears—for all the world to see—in almost every edition of a great metropolitan daily.

Ask any linotype operator and he'll tell you he knows them well. A bit too intimately, in fact.

The widgets squat on the shoulders of compositors, punching the keys whenever the operators' heads are turned.

Give any other explanation, if you can, for a piece of copy about a window washer appearing in the paper as "widow washer." No compositor would ever make such a mistake. It was a Gremlin.

Picture the devilish glee of the pixie responsible for the following: "The pastor will preach and there will be special singing by the congregation."

Or imagine the laughter of the Gremlins who got this one across: "All the bridesmaids wore red noses."

Probably a mere widget—a baby Gremlin—accomplished the mischief. But the town's outstanding citizen, a gentleman of the cloth, appearing at a civic function as the "guest of horror."

"A middle-aged man," one of the creatures arranged to get into

print on the first page of the paper, showed signs of having had just a trifle too much to drink, was standing in the middle of the moon."

All composing room workers are on speaking terms with the elfin visitors. Whom else but a Gremlin would have transposed the captions under two pictures, one showing a female postman and the other a trans-Atlantic liner carrying mail.

Under the woman's photograph were the lines: "Mail carrier torpedoes."

In another contretemps, a department store president read one of his concern's advertisements and discovered he was offering something new to the public.

His copy had read: "Rugs for sale." A Gremlin altered that to: "Bugs for sale."

One of the favourite haunts of the Gremlins is the proofroom.

There, sitting three and four atop a reading table, they have a field day, poking through every piece of copy that daily passes through the department.

One of the tiny fellows, a little bolder than the rest, tampered with the sacred institution of marriage.

He fixed up a society story in this fashion: "And at the flower-festooned altar, where the minister intoned the solemn marriage rites, the couple, their hands entwined, exchanged holy cows."

Another relative of this same pixie tried to match that with a little dido involving punctuation.

The paragraph, as the writer wrote it, set forth: "The bride wore a veil. Only relatives attended." After the Gremlin got in his ditty word the period was changed. It stood after the word "only."

On another occasion, made to order for the Gremlins, an editor, following a disastrous fire, ordered all proofs sent to his office. Slugs to that effect were set up and used on each "take" of the article.

When the story appeared in the paper, it told all the absorbing details: "The young mother, child in arms, stood at the window of the third-story room, smoke and flames swirling about her, and yelled send all proofs to the editor."

Frequently editors, losing patience with the little men, have spoken to them harshly. In fact, one editor was heard plainly dressing down one of the creatures in these cutting words:

Etaoin shrdlu etaoin shrdlu etaoin shrdlu . . .

so the service certainly isn't what it used to be. Hope things are well with you. I'm feeling 100% right now. Am cut short, so thank again for remembering me and regards.

Ian Murdoch.

Sincere thanks for another parcel of cigarettes. Everything fine here. All the best.

Vance Farrell.

I received your ever welcome cigarettes and sure appreciated them very much. Thank you and all the members of the committee. Thanks very much.

Pte. Leonard Mino.

Thank you very much for 300 cigarettes received. I appreciate your kindness and assure you they are most welcome.

G. A. Silver.

Thank you ever so much. These cigarettes are greatly appreciated. I ran into Barry Bourne a while back and we had a great old talk about home and how good you people are to us. Best regards.

E. B. Scott.

My sincerest thanks to the people of Grimsby.

A. N. Brockbank.

I must thank the Grimsby people and yourself for sending us boys overseas the cigarettes. They are more than welcome.

W. MacFarlane.

Received your cigarettes which I want to thank you for sending. They are hard to purchase here. Thanking you once again. I remain,

A. M. Marlowe.

Received the cigarettes alright. Many thanks. I appreciate them very much.

C. York.

Many thanks. Cigarettes are always more than welcome.

M. Johnson.

Thanks again for another carton of cigarettes and all the good wishes of our Grimsby friends that accompany it. Your parcels are certainly a regular reminder of all your good efforts in our behalf.

We have reports of your real Canadian winter and terribly cold spells. We haven't had anything like that yet nor even any snow that lasted. It's beautifully mild and sunny just now at about 50 degrees but that could easily

change in a matter of minutes. Certainly no monotony where the weather is concerned.

All the activity here is away upstairs and we can mostly hear them going or coming up there. Saw a bit of the display up in the Old Smoke the other day from a very distant position.

The mail has been coming in very regularly even though most of it does take over the month. We all did very well over Christmas without losing anything that we know of—which is rather remarkable. Had an Air Mail in six days from home also which brought me very close and up-to-date on the Grimsby news.

Thanks again to you all for your greetings.

Capt. P. Fairbank.

Many thanks for cigarettes received today. Do keep up the good work. All will be back soon.

Francis Craig.

I received 300 Export Cigarettes for which I want to thank you very much.

Pte. M. Smith.

Thank you very much for the 300 cigarettes that I received from you.

Pte. Joe Hands.

MAIN DRIVING WHEELS OF CANADA'S WAR EFFORT

HURRYING wheels, thundering wheels. Wheels that have made it possible for Canada to grow in strength.

Today those wheels—the driving wheels of Canada's railways—are setting the pace for the war effort. They haul raw materials to humming war industries and rush away the finished tools of battle. They move food and fuel for the home front and the fighting front. They speed civilians on essential business, hasten troops to camps, embarkation points and on leave.

It's Canada's big war job. A job that only railway wheels can do. A job in which an army of 150,000

railway workers, men and women, are fighting for Canada... shop crews and train crews, yard workers, section hands, telegraphers, signal men and office workers, a multitude of men and women in a multitude of jobs. They are making the giant wheels turn faster and faster.

From coast to coast in Canada, we—your railways—are rolling in the service of freedom, and our lines to and in the United States have linked the war efforts of two great sister nations.

The railway wheels are driving, in war as in peace, for Canada.
